

Craven Street Improvement Project: Multimodal Roadway Improvement (Craven Street Waterline Upgrade)

Posted 09/23/2014
Last Revised 11/10/2014

Timeline

2015 MARCH

Estimated project completion

2014 NOVEMBER

Realignment of the intersection of
Craven Street and Hazel Mill Road

2014 SEPTEMBER TO BEGINNING OF NOVEMBER

Craven Street will be closed to
complete roadway improvements

2014 APRIL 21

Construction begins on the
Waterline upgrade and
multimodal improvement project

What's happening now?

The arch culvert is installed and backfill is beginning. This section of the project is nearly complete and work will shift to the Craven Street/Emma Road area next week. The section of Craven Street between Georgia Avenue will open. A new 4-way stop will be created by tying Craven Street

Starting on November 11, the section of Craven from Waynesville to the intersection with Hazel Mill Road will be closed for the completion of the realignment of the intersection of Craven Street, Hazel Mill and Emma Road. This closure will be in place until approximately March 2015.

Background

The Craven Street Multimodal Roadway Improvement project is a part of the larger Craven Street Improvement project located in the area surrounding the New Belgium Brewery construction site.

This portion of the project involves Haywood Road to Emma Road, a road section that is currently inadequate for New Belgium Brewing's operations. The road will be widened to the east of the current layout in order to accommodate trucks and to include bike lanes, necessary stormwater infrastructure, and an ADA compliant sidewalk on Craven Street from Haywood Road to the Craven Street Bridge. A realignment of the intersection of Craven Street and Hazel Mill Road will significantly improve transportation navigation issues and increase public safety. A transit shelter will be provided at the intersection of Haywood Road and Craven Street.
